The musical score is for the song "The Sound of Silence" and consists of three staves: Xylophone, Vibraphone, and Bass. The key signature is A major (three sharps: F#, C#, G#). The time signature is 4/4. The score begins at measure 61. The Xylophone part features a complex, rhythmic pattern of chords and single notes, often marked with 'x' symbols. The Vibraphone part plays a melodic line with a prominent slur over measures 63 and 64. The Bass part provides a steady, rhythmic accompaniment with a mix of eighth and quarter notes. Chord symbols are placed above the Xylophone staff: A# at measures 61, 63, and 65; Gm(add4) at measure 62; and F7 at measure 64.

Guitar

**WHIRLPOOL:** Time goes slower the further you move into one's mass. So, your black-hole heart is younger than how you look. Really, you're naïve and scared on the inside. Life went by fast when the family was together. One millennium, you were baby Cartwheel. The next, you're a teen with hands on the wheel. The same goes for Milky Way. However, we ain't present for our baby sibling. We will miss their stages of development, from height to psyche. Sure, you yourself ain't grown a bit. But get it through your head that there will someday be no time.

56 B(sus4) C#(sus4) B<sup>6</sup> E<sup>6</sup>

Please do face time.

Dilemma, that we face. Milky Way will outgrow our neglect.  
Past, present, and future, all we need is each other.  
You'll come around to it.

59 E B(add2) C#m(add2) A B

WHIRLPOOL

Time's too re-lat-ive. We need to see our fam-i-ly. You'll know in no time...

**CARTWHEEL:** T. Time... Over. Time has an influence over all... Square. Our family square... Root. Where we come from... Of one. Our single parent... Minus velocity. Each of us leaving for another city... Squared divided. Our family is divided... By the speed of light squared. Even though we squared off, our family will truly be over once we see the light...

Time is more special than it is relative... Unlike light, time is not passed down. Time's only here for the relationships in the moment. Whirlpool and I left home at the age of thirteen or so eternities near the speed of light. Milky Way was twelve eternities old. If we come back eternities later, we'll only seem a bit older while Milky Way may be rightfully old. Time dilation... We are forever Singularity's babies. But no matter how hard we try, nevermore family will be. Whether times are fast or slow, it doesn't change that time passes away. I must take on this weight. We must be there for our family before we won't have time anymore.

We'll know in... *No time.*
