David Quang Pham (he/him) is a galaxy-class astronomer and songwriter. Due to youthful trips to space camp and operas, he has been composing love letters to science. After completing an astrophysics and theatre education at Michigan State University, he studied under Working Title Playwrights' Apprenticeship in Atlanta. Janelle Lawrence is his mentor. Since 2017, he has been crafting a particle physics opera. TOUR revolves around subatomic educators colliding in the academic Accelerator, is a 2020 Downtown Urban Arts Festival finalist, and had a reading under The 24 Hour Plays in partnership with the Dramatists Guild. His music has been performed at Cabaret on the Couch, Musical Theatre Factory, and Play Café. He plays the modern sackbut. Work Samples

Work samples are one of the most important parts of this application. Your work samples represent the artistic merit of your work and the work of your collaborators.

If available, you are encouraged to submit excerpts from the work for which you are requesting support. If you do not have samples from that work, please provide samples that demonstrate your ability to write in the genre/style of the proposed work.

Composer

Please provide two work samples for the composer that reflect the best work of the artists involved (audio, video, and/or score or chart samples). Media samples can be Vimeo, YouTube, or SoundCloud links.

Although no previous experience with opera is required, we are interested in hearing any vocal music you might have written and if possible, would like to get some sense of your notational skills (e.g., scores, chord charts, or other graphic representation of your music).

The total timing of the musical selections should not exceed 20 minutes. Trim samples to the specific excerpt that you would like to be reviewed. If you are not trimming the samples as suggested above, clearly mark the timings in

OPERA AMERICA

the notes (e.g., Play from 3'22"–7'49").

MIDI recordings are permitted but not recommended. For any questions about work samples, please contact Diana Hossack, grantmaking associate, at DHossack@operaamerica.org.

Personal Statement

Personal statement*

What inspires you creatively? Why have you chosen this subject matter? Why did you choose to tell this story as an opera?

I grew up in an Asian household. All my parents ever watched were Eastern operas and Kabuki-esque theatre. So naturally, I compose on a pentatonic scale. As opposed to an eight-note diatonic scale in Western music, six notes are simple. Yet, if the instruments are primitive and the theme of the story is folksy, the opera is suddenly elaborate. The Universe I live in is minimal; it sounds plain. So, the universal plain is mostly dark matter (silence). That nature provides complexity. It is difficult to unravel this traditional fabric of spacetime. It is a challenge I accepted. I strive to unroll my culture's artistic scroll. As a Vietnamese American, I aspire to connect the Eastern and Western art forms.

OPERA AMERICA

Working Title Playwrights
David Quang Pham

As an artful scientist, I make these connections by writing love letters to science. Science spins my creative process. I look for connections in my research in any branch of physics, particularly as a college student. At the Cyclotron, I felt that the quarks are also trying to attain a higher degree. In the Observatory, I noticed that the galaxies also felt aimlessly lost in our field. And these personifications are amplified and made special by my culture's inherent devotion to humanizing nature. We love to turn wind into ghosts. My mind is astrophysical and astral spiritual. These aspects grant me the spirit of the science musical writer.

ELLIPSES

Please update these fields if anything has changed since you submitted the intent to apply.

Work summary*

Submit a plot summary of the work associated with the application.

ELLIPSES is an epic science mythology about family, child development, and adulthood. ELLIPSES stars Singularity and their teenage Galaxies and follows their quest to undo the Big Bang, after Gravity (the family dog) sets it off.

Every character is named after a celestial object. Singularity is the single parent who locked their kids in the house. Milky Way is the baby sibling who is going through galactic puberty. SPT0615-JD is the rebellious young adult who wants to leave home to go explore the Universe. JD is sick and tired of being stuck in the house with their family. In a violent altercation, JD shoots Singularity to run away from home with Gravity (aka the Big Bang). Without their parent, the younger siblings are left to fend for themselves in the vastness of the cosmos. These Galaxies spend the rest of time looking for their missing oldest sibling. The supermassive heart of this coming-of-age story is self-discovery in isolation...

Project description*

Describe the specific activities for which funding will be used.

ELLIPSES will have its first live workshop. We strive to preview the first half-hour of ELLIPSES up to the Big Bang, viewed by an invited audience, including the University of Maryland. The talkback may be led by their UMD doctoral dramaturg, Ealey.

The unique sciart blend and spiritual allegory will incentivize a space in Washington D.C.. On February 2021, Chacon's ViOp Productions filmed Musical Monuments, the African American Concert Tradition in collaboration with St. Augustine's Episcopal Church: <https://youtu.be/mj61UdV1cTs>. In partnership with ViOp, a performing company, we plan to hold the event on a Saturday in February 2022, coinciding with Black History Month and Lunar New Year.

An IDEA Opera Grant will help cover the venue rental for two rehearsals and the workshop. It will compensate 16 team members (dramaturg, stage manager, music director, stage director, ten vocalists, and two understudies), and cover the cost of travel and housing for the creative team from New York.

Proposed project start date*

Funding may not be applied to expenses incurred before December 1, 2021.

01/01/2022

Proposed project end date*

Grant-funded activities must be completed by December 31, 2022.
