Time's not rel-a - tive...  
The focal point is

21 What is this?! Where's time in all this?

CARTWHEEL

WHIRLPOOL

Enlightenment.

Time's in a whole 'nother dimension. The fourth.  
Time ain't even seen in ours. Which is the third.  
So, these strobes of lights will have to do in  
presenting the speed of time.

24 Why is my time so slow? Family... However, when you factor in time...

CARTWHEEL

WHIRLPOOL

Time ain't going faster if you keep stressing. Think about something that makes you less worried. Exactly. One moment here seems like a million years.

Drum Set

Moderato

(freaking out) One million years with relatives seem like a moment.

CARTWHEEL

WHIRLPOOL

That's relativity. Ain't you want time to go by faster? Time goes by quickly, being clustered with those you love spending it with. Time is specially related to family.

63 Singularity is not who we should make amends with. It is time. When times are slow,  
life is longer. Singularity stays single. We go the distance. For Singularity's sake,  
we must continue on this slower passage of time.
