

## QUESTIONS

Is this a Human Story or a Galaxy Story? (vote in the chat/explain however)

What do you think? Children vs Parent story. Galaxies vs Singularity. No side is better than the other, and no side is worse than the other. Is JD an anti-hero and is Singularity a tragic villain?

What do you think? Child becomes the Parent story. JD becomes a Singularity.

What do you think? Equating the Big Bang as a tragic event.

What do you think? Tidal forces or gravitational forces personified as canines.

Do you foreshadow more violence or more silence?

In terms of galactic thousands/millions/billions years, did it seem parallel to earthly seconds/days/weeks?

Who is the target audience?
