Minus velocity. Each of us leaving for another city... Squared divided. Our family is divided... By the speed of light squared. Even
though we squared off, our family will truly be over once we see the light!

Time is more special than it is relative... Unlike light, time is not passed down. Time's only here for the relationships in the moment.
We left at lightspeed. Milky Way was twelve. If we return eternities later, our faces will be unfazed while Milky Way will change.
Childhood goes by faster than other stages. Time dilation! I'll take on this weight before it's too late. Let's be there for our relatives
before we won't have time anymore. We'll know in... No time.
