## **AUTHOR'S NOTE TO THE DIRECTOR**

**There are many reasons why I am grateful for Moon's "Generating Story Ideas" class from bring light to my storytelling to the generation of ELLIPSES to most importantly: meeting new people, especially Aliyah. After presenting two pages of my personification of the Big Bang between Singularity and one of the children, Aliyah was one of the first people ever to give their input.**

**Little did I know that we'd have a full-length musical in a year, but universally I knew that whatever I had, Aliyah would take it lightyears ahead.**
